WHEN THE WATER CALLS YOU'LL WANT TO ANSWER IT

Heyday was born from an opportunity to design a boat from the ground up, reimagining what the ideal wake sports boat could—and should—be.

We prove it's possible to offer a combination of both performance and value previously thought unattainable by putting wake quality and our riders' needs first.

HOW WE CREATED THE NEXT GENERATION OF TOW BOATS:

THE COMPLETE PACKAGE COMES WITH THE NECESSITIES:

BALLAST
Fill with the flip of a switch

POWER
Inboard with plenty of pull

AUDIO
Bring your own soundtrack

STORAGE
Load it up with gear

SEATING
Cruise with a full crew

TRAILER
Every Heyday comes ready to roll

“It’s about time someone made a sick boat that people can actually afford.”

INSPIRED BY SPORT PERFECTED FOR PURPOSE

Our unique transom’s **Integrated Wake System (IWS)** makes our lineup simply smarter, eliminating the need for shaping tabs, gates or add-ons that rack up cost and complicate the ride.

You’ll get an intuitive, easy-to-use wake boat that throws an ideal wave every time.

**OUR INTEGRATED WAKE SYSTEM:
SUPERIOR TRANSCOM DESIGN
= SUPERIOR PERFORMANCE**

WIDTH
Cancels prop torque
for perfect wake
symmetry

ANGLE
117° naturally
shapes the wave so
you don’t have to

RADIUS
Rounded corners
feed water into a
continuous curl

DESIGNED TO GIVE YOU THE BEST RIDE

Whether you prefer a wakeboard or a surfboard, Heyday is engineered to put the physics of the water on your side. Find exactly what you're looking for in the ideal wake.

I'm proud to be representing a brand who's focusing on the key aspect of wakeboarding: the wake. Heyday is trying to keep it affordable to make the lake more accessible for everyone.
