NEXT LEVEL

PERFORMANCE AND STYLE

HIGHLY EVOLVED BOWRIDERS

Cleverly designed to offer the interior space of boats up to two feet longer, the VR Series combines performance, features and comfort. Our BeamForward™ design carries the full beam further forward, increasing comfort and capacity versus traditional pointed bows. We increase cockpit room with our AftAdvantage™ design that shifts the seating to the aft-most point of the running surface, with the swim platform extending beyond that. This creates more usable space and keeps families comfortable all day.
